

C+CoQ10

Super Antioxidant Supplement using Plant Cell Technology

C+CoQ10 Antioxidant with Plant Cell Technology is a unique formula combining coenzyme Q10 and vitamin C, two of the most potent antioxidants available.

Key Ingredients of C+CoQ10:

About Plant Cell Technology - Ingredients are “grown” containing a full food matrix, so your body recognizes these ingredients as food. Plant-cell minerals and vitamins contain food constituents of proteins, carbohydrates, lipids, amino acids, enzymes and bioflavonoid.

Plant Cell CoQ10 - Increases exercise tolerance, assists in the production of ATP (adenosine triphosphate) and supports immune-system functioning. CoQ10 also helps to support cardiac-muscle metabolism. Bioavailability of Plant Cell CoQ10 was 2.67 times greater than the pharmaceutical form of CoQ10.

Plant Cell Vitamin C – Essential for collagen formation, this vitamin aids in immune system functioning. Vitamin C promotes healthy gums, wound healing, and proper adrenal function. Plant Cell vitamin C was absorbed 1.87 times greater than synthetic ascorbic acid vitamin C in a double blind study at Scranton University.

Plant Cell Vitamin E – An excellent source of bioavailable calcium, a full spectrum of minerals, provides intact organic bone matrix (i.e. collagen protein and glycoaminoglycans) and mucopolysaccharides for complete bone nourishment.

Plant Cell Selenium – Plays an important role in calcium metabolism and acts with calcium to support many biological processes including proper bone formation, muscle contraction and relaxation and nerve transmission.

Plant Cell Beta Carotene & Carotenoids – Are phytonutrients that act as antioxidants and offer an array of health benefits such as lowering the risk for heart disease, enhancing the immune system, and protection from age-related macular degeneration. The key carotenoids are Plant Cell Beta Carotene, Lycopene, Zeaxanthin and Astaxanthin.

Pine Bark Extract & Grape Seed Extract – These extracts are oligomeric proanthocyanidins (OPC). OPCs are a subgroup of polyphenols which are flavonoids in the catechin category. OPCs are assimilated in the body in seconds, enhancing the effectiveness of other antioxidants in a synergistic fashion such as vitamins A, C and E. OPCs protect against radiation, pesticides, chemical pollution, and heavy metals.

Curcumin C3 Complex 95% – Is the active ingredient in turmeric, which contains a mixture of powerful phytonutrients known as curcuminoids. Curcuminoids have antioxidant properties and significant anti-inflammatory effects.

Quercetin – A flavonoid that functions as an anti-inflammatory and anti-allergen. It also exerts potent antioxidant activity and boosts the effectiveness of vitamin C. Quercetin appears to reduce capillary fragility.

Green Tea Extract 50% – Is a super antioxidant that contains a combination of flavonoids and polyphenols. There are three catechins that are especially noted for their effects: epicatechin, epigallocatechin, and epigallocatechin-3-gallate. Green tea has been known for its antiviral effect, immune supporting properties, and heart health benefits.

Alpha Lipoic Acid – Is a powerful antioxidant in the areas of neuron protection, stroke, heart disease, and cataracts. ALA boosts the entire antioxidant network by increasing levels of vitamins E and C, glutathione, & CoQ10. It's one of the few compounds that deliver its antioxidants right into the mitochondria. ALA also improves blood sugar balance and lowers insulin resistance.

Supplement Facts

Quantity: 60 Vegicaps

Serving Size: 2 Capsules	Amt Per Serving	%Daily Value
Plant Cell CoQ10	50mg	*
Plant Cell Vitamin C	120mg	50%
Plant Cell Vitamin E	60iu	200%
Plant Cell Selenium	70mcg	100%
Plant Cell Beta Carotene	3000iu	*
Pine Bark Extract	100mg	*
Grape Seed Extract 98%	100mg	*
Curcumin C3 Complex 95%	100mg	*
Quercetin	50mg	*
Vinpocetine	5mg	*
Green Tea Extract 50%	100mg	*
Resveratrol	10mg	*
Beta 1,3d Glucans	10mg	*
Lycopene 1%	25mg	*
Alpha Lipoic Acid	25mg	*
Zeaxanthin	2mg	*
Astaxanthin	2mg	*
Plant Cell Germanium	10mg	*
D-Ribose	10mg	*

* Daily Value not established

Also Contains: vegetable cellulose capsules.

Directions For Use: Take one (1) capsule two (2) times a day with meals, or as directed by your health care professional. Keep out of reach of children.

If you are pregnant or nursing, consult a physician before using this product. This product contains NO egg, dairy, fish, peanuts, crustacean shellfish (lobster, crab, shrimp), soybeans, tree nuts, wheat (gluten), or yeast. Contains no artificial sweeteners, flavors, colors or preservatives. This product has not been evaluated by the FDA and is not intended to cure, treat, diagnose, or prevent disease.
