

Most people in North America lack important probiotic bacteria normally found in healthy people that consume a diet based on plants, fibers, fresh fruits, and vegetables. Today's highly processed commercial foods lack the healthful microorganisms that the body requires for a normal balanced microflora.

Probiotic made with **LactoSpore®**, provides the good bacteria essential to maintaining a healthy immune system.

LactoSpore is an intestinal probiotic enhancer designed to improve gastrointestinal function and intestinal good bacterial microbial balance.

LactoSpore increases enzymes for improved digestion, inhibits the growth of pathogenic bacteria, yeast and parasites, and enhances the bioavailability of nutrient from food.

Probiotic promotes normal colonic blood flow, produces essential nutrients for the colon mucosa, synthesizes vitamin K and B vitamins, and facilitates nutrient and mineral absorption.

Probiotic helps to detoxify carcinogenic enzymes, as well as hormones and drugs. Normal intestinal balance of microorganisms can be disrupted by stress, disease, poor nutrition, toxins, and medications (i.e. antibiotics, immunosuppressant's and gastric acid inhibitors) resulting in intestinal and systemic health disturbances.

Anyone who has taken antibiotics or other immune suppressing agents should take Probiotic during and after taking these immune suppressing agents. Probiotic does not cause gas or bloating.

Key Ingredients of Probiotic:

LactoSpore grows in the small intestine where they add beneficial lactic acid to your digestive tract, which helps to eliminate potentially harmful bacteria present in our intestines. This reduces the symptoms such as diarrhea, constipation, gas, and bloating caused by the presence of harmful organisms.

LactoSpore, *L. sporogenes*, is the *Lactobacillus* favored in infant nutritional programs, as recommend by the World Health Organization.

LactoSpore does not require refrigeration to maintain optimum potency. Lactospore is protected from destruction by environmental factors by the naturally present microencapsulating system, the spore coat. **LactoSpore** is 100% vegan.

Supplement Facts		
Quantity: 60 Vegicaps		
Serving Size: 2 capsules	Amt Per Serving	%Daily Value
LactoSpore	450mg	*
9 billion active bacteria per gram		
* Daily Value not established		

Also Contains: vegetable cellulose capsules.

Directions For Use: One to two (1-2) capsules three to four (3-4) times daily, or as directed by your health care professional. Keep out of reach of children.

If you are pregnant or nursing, consult a physician before using this product. This product contains NO egg, dairy, fish, peanuts, crustacean shellfish (lobster, crab, shrimp), soybeans, tree nuts, wheat (gluten), or yeast. Contains no artificial sweeteners, flavors, colors or preservatives. This product has not been evaluated by the FDA and is not intended to cure, treat, diagnose, or prevent disease.
