

# Beat The Heat Operating Instructions

SKU 3466

Start slowly, then increase the powerful thumping speeds with Beat The Heat a unique masturbation sleeve. Feel the thrill rising as the creamy smooth silicone channel and ribbed texture provide exciting sensations that increase exponentially with 6 stimulating, pulsating vibrations. The exterior is ribbed too for slip-proof additional hand stroke sensations. Is it getting warm in here too? The heat intensifies and feels like the real thing. This sleeve delivers a delicious thumping function that mimics the best part of a BJ, that tongue-flicking sensation on the frenulum, the sensitive spot under the head. Then as if that weren't enough, the final 'over the top' function is a 'Turbo Max' button that you can press when the licking and vibrating motors are both in effect. This instantly boosts both motors up to their maximum speed, giving you an outrageous blast of intense sensation! These four features together add up to an unforgettable experience that will delight and excite you every time you enjoy this waterproof Beat The Heat.
