Goddess Bedtime Stories

By Kendra Holliday

According to Tristan Taormino, sex educator, author and feminist pornographer, **Goddess Bedtime Stories** is "a very delicious book and an inspiring collection of erotica."

Goddess Bedtime Stories is put out by **Athena's Home Novelties**, an empowering sex toy company that also published the first waterproof book for adults (**Aqua Erotica**).

As a fellow goddess, naturally I love the concept of Athena's company. They believe in human empowerment and that every woman and man is a Goddess/Adonis waiting to be released.

There are SOO many sex toy companies out there, and I was pleased to discover Athena's carries a very positive message. They are even family-friendly - their toy catalog doesn't include photos of the phallic shaped toys, in case a kid comes along and picks it up. They fully expect parents to be sexual creatures and want to honor discretion.

In other words, people, I am featuring a tasteful vanilla subject to counter all the BDSM stuff I've been talking about lately. It's been an intensely turbulent time in St. Louis, so it's nice to escape to a place where gods and goddesses frolic freely and POSITIVELY.

This company is so positive, it exudes great comforting SEXY energy, and the book is a wonderful vehicle for showcasing that.

It's a successful collaboration effort and edited by Athena's Founder, Jennifer Jolicoeur. She challenged the men and women of Athena's to write an erotic story, and chose 21 to be included in the book.

One of my favorite parts is the Acknowledgments. It's clear Jennifer (sorry, Goddess Jennifer) is surrounded with love and support, from people like her mom and her husband, all the way to her 4th grade teacher who encouraged her to write. (Don't you love cover model Amy Bishop's white panties, by the way? So pure...)

The stories themselves are not so pure, much to my delight, and cover a wide range of favorite fantasies - public sex, gay sex, group sex, and my favorite story called "Picture Perfect," featuring lesbian sex - and a character named Kendra!

An excerpt:

Jason slowly lowered the camera to better take in the girls kissing seductively. Kendra slowly moved her hands into Desiree's low cut shirt to feel her erect nipples. Desiree let out a soft moan as she moved her lips down Kendra's neck and began to remove her shirt. Jason felt his penis begin to swell, but did not want to disturb the girls...

I was kind of surprised condom use isn't included in the stories, but hey, they're fantasies, and who wants to interrupt a perfectly good fantasy with safer sex? Not me! The fantasy itself is the safest sex you can have!

Lose yourself in stories featuring Mystery, Romance, Playing at Work, and more! Choose your own adventure - and make some of your own.

Athena's hopes this book inspires you to stay up all night having the best sex of your life!

I'll be donating my copy of this book to Shameless Grounds so you can read the rest of "Picture Perfect" and pore over more of the stories with a coffee in hand. You'll have to check it out if you want to stick your hand in your pants.

I hope Shameless Grounds is able to open this Friday!

If I don't wear a condom while jerking off, there's no reason for the object of my fantasy (visual or written) to either.

Porn with condoms always bugs me. To me, that doesn't indicate supporting safe sex, but rather the production company saying "we're too cheap to pay for STD testing."

Hopefully when I come back to the states I can go visit Shameless Grounds, I'd love to feel the positive force, that and I'm a total slut for caffeine.

I really do like the cover, I feel all fluffy inside.
